

Solution details		Sentera products	
<p>The EC fan will be controlled based on the pressure level. The pressure setpoint and other parameters of the DPSPF pressure controller can be modified via Modbus RTU communication.</p> <p>Suited for motor type: 230 VAC EC motor with 0-10 VDC analog input Motor control: Demand controlled (based on pressure level algorithm)</p>		<p>Article code</p> <p>DHDR8-24/36 DPSPF-1K0-2 PSET-PVC-200</p>	<p>Description</p> <p>24 VDC power supply Differential pressure, air flow controller Differential pressure connection set</p>
		<p>External products</p> <p>EC fan with 0-10V control</p>	

Consult the fan manufacturer for the correct wiring
