EVS-1-30-DM SDP-M010-AT SEPS8-24-40	Remote variable speed control for single-phase voltage controllable motors. The maximum motor current is 3 A. Typically, this solution is used to control AC fans or pumps in HVAC applications. The motor speed can be selected via the external potentiometer. At zero position, the motor stops. It is advisable to limit cable length between potentiometer and fan speed controller.
