

Solution details

The AC fan will be controlled via the two-speed transformer fan speed controller ST2R1. The external contact for activate the fan (Available NO and NC contact). Built-in clock for on/off and high/low speed switching. TK monitoring for thermal motor protection.

Suited for motor type: 230 VAC voltage controllable motors  
Motor control: Transformer fan speed controller  
Minimum motor speed: Make sure that the minimum voltage remains high enough to avoid stalling of the motor.  
Maximum motor current: 13 A

 Consult the fan manufacturer for the correct wiring
