

**Solution details**

The AC fan will be controlled based on the pressure level.  
 The pressure setpoint and other parameters of the HPSPF pressure controller can be modified via Modbus RTU communication.  
 TK monitoring for thermal motor protection.

Suited for motor type: 230 VAC voltage controllable motors with TK motor protection  
 Motor control: Electronic fan speed controller  
 Minimum motor speed: Make sure that the minimum voltage remains high enough to avoid stalling of the motor.  
 Maximum motor current: 3 A

Consult the fan manufacturer for the correct wiring
