

Solution details

The AC fan will be controlled manually.
The RDCV will provide the control analog signal (0-10V) for the STVS.
TK monitoring for thermal motor protection.

Suited for motor type: 400 VAC voltage controllable motors with TK motor protection
Motor control: Transformer fan speed controller
Minimum motor speed: Make sure that the minimum voltage remains high enough to avoid stalling of the motor.
Maximum motor current: 1,5 A

Consult the fan manufacturer for the correct wiring
