

Solution details

The AC fan will be activated via the integrated ON/OFF switch in the LTV controller.
The air velocity of the fan can be manually (stepless) adjusted via the LTV potentiometer.

Suited for motor type: 230 VAC voltage controllable motors
Motor control: Electronic fan speed controller
Minimum motor speed: Make sure that the minimum voltage remains high enough to avoid stalling of the motor.
Maximum motor current: 10 A

Consult the fan manufacturer for the correct wiring
