FI-E33240E6-19 SDP-M010-AT	Variable speed control for 3-phase 230 Volt motors. The maximum motor current is 24 A. The fan speed can be manually set via the remote potentiometer. At OFF position, the motor stops (the potentiometer output value is 0 % by default). The supply voltage is 3-phase 230 Volt. The frequency inverter has an IP66 protection against ingress of water and dirt.			Set frequency inverter parameters: P30=auto_0
