

Solution details		Sentera products	
<p>The EC fan will be controlled based on the pressure level. The pressure setpoint and other parameters of the HPSPF pressure controller can be modified via Modbus RTU communication.</p> <p>Suited for motor type: 230 VAC EC motor with 0-10 VDC analog input                      Motor control: Demand controlled (based on pressure level algorithm)</p>		<p><b>Article code</b></p> <p>DHDR8-24/36                      HPSPF-2K0-2                      PSET-PVC-200</p>	<p><b>Description</b></p> <p>24 VDC power supply                      Differential pressure, air flow controller                      Differential pressure connection set</p>
		<p><b>External products</b></p> <p>EC fan with 0-10V control</p>	

Consult the fan manufacturer for the correct wiring
