| TCMF8-302EW<br>ADPT-3RJ-TD<br>2 x DTS-M-080<br>2 x DTS-MB-BK-ASM | Temperatures at the ceiling and floor level are measured by two temperature sensors with stainless steel probes 85 mm. The higher the difference between both temperatures, the higher the AC fan speed. The combined maximum speed per output is 3 A. There are two regulated outputs available. This destratification controller has a built-in LAN / WIFI gateway. |                   |                     |            |        |              |
